Start The Reactor

A Textbook Tragedy

If you don't need a thing from me
I'll get out of here, I'll leave
'Cause I've never cared what they think
And I've never been afraid but if I want to learn how to be
I won't need to look far to see

It's just the way I feel
I wanna break things, I wanna break rules
I don't do this to fit in or feel cool
I do this because it's what I love
I always want to feel this young!
(Oh oh)

Take back (what's yours!)
Don't let it slip away
Feel the fear and know it's here
And disregard it anyway
Looking back at! Looking back at your life
If you know yourself then you can trust when it's right

It's just the way I feel
I wanna break things, I wanna break rules
I don't do this to fit in or feel cool
I do this because it's what I love
I always want to feel this young!

So we strive to do the best that we can
With the cards that have been placed in our hands
Don't forget about the things that you said
All we wish for is gone in the end
(Don't let) Just remember what matters the most
(Fantasy) Is the why's of the do's and the dont's
(Blind you from) There are reasons behind all the rules
(Reality) Don't forget or you'll fall

It's just the way I feel
I wanna break things, I wanna break rules
I don't do this to fit in or feel cool
I do this because it's what I love
I always want to feel this young!

I always want to feel this young!

So when you look back will you let go?
Learn from the past or you will never know!
So when you look back will you let go?
Learn from the past or you will never know!
