Winter Wonder Land

Animal Collective

Mold of the fawn
I have been frozen here for days
With headlights reflecting in my face
I must be cold on your lawn.
But inside I'm ok,
I can live without your time
Where snowmen never melt
Instead they always shine
If you don't believe in fantasy then don't believe in fantasy but
do you not believe in fantasy because it gets you down?
If you don't believe it's raining I won't tell you that it's raining
but do you not believe it's raining just because it gets you down?

If you don't believe in happiness then don't believe in happiness
but if you don't believe in happiness then man you must be down.
If you don't believe you're dying I won't tell you that you're dying
but do you not believe you're dying just because it gets you down?
Our homes are all white
And we go dancing on a lake
And sleds will carry us tonight
And snowflakes will blow us on our way
Drifts rise to the sky
Rainbow hats fly down them
And tears are frozen diamonds
So we smile while we're crying
W
