We Could Happen

Aj Rafael

Verse 1:
I'll hold the door
Please come in
and just sit here for a while.
This is my
way of telling you I need you in my life.It's so cold
without your touch.
I've been dreaming way too much
Can we just
turn this into reality.Chorus:
Cause I've been
thinking 'bout you lately.
Maybe you can save me,
from this crazy world we live in.
And I know we could happen,
cause you know that I've been feeling you.Verse 2:
Storms they will come
but I know,
that the sun will shine again.
He's my friend,
and he says that we belong together.
I'll sing a song,
to break the ice.
Just a smile from you would suffice.
It's not me,
being nice girl this real tonight.Chorus:
Cause I've been
thinking 'bout you lately.
Maybe you can save me,
from this crazy world we live in.
And I know we could happen,
cause you know that I've been feeling you.
I know you want me.Bridge:
There's no other,
there's no other love.
That I'd rather have,
you know.
There ain't no one,
there ain't no one else.

I want you for myself.Chorus (2x):
Cause I've been
thinking 'bout you lately.
Maybe you can save me,
from this crazy world we live in.
And I know we could happen,
cause you know that I've been feeling you.
I know you want me.
