

We Could Happen

[Aj Rafael](#)

Verse 1:

I'll hold the door
Please come in
and just sit here for a while.

This is my
way of telling you I need you in my life. It's so cold
without your touch.

I've been dreaming way too much

Can we just
turn this into reality. Chorus:

Cause I've been
thinking 'bout you lately.
Maybe you can save me,
from this crazy world we live in.

And I know we could happen,
cause you know that I've been feeling you. Verse 2:

Storms they will come
but I know,
that the sun will shine again.

He's my friend,
and he says that we belong together.

I'll sing a song,
to break the ice.

Just a smile from you would suffice.

It's not me,
being nice girl this real tonight. Chorus:

Cause I've been
thinking 'bout you lately.
Maybe you can save me,
from this crazy world we live in.

And I know we could happen,
cause you know that I've been feeling you.

I know you want me. Bridge:

There's no other,
there's no other love.

That I'd rather have,
you know.

There ain't no one,
there ain't no one else.

I want you for myself. Chorus (2x):
Cause I've been
thinking 'bout you lately.
Maybe you can save me,
from this crazy world we live in.
And I know we could happen,
cause you know that I've been feeling you.
I know you want me.
