

# Bitter End

## Gordi

Well, we're we all just bending backwards  
Like the world's end has arrived  
Now the heartbreaks  
Build a story for those who have survived  
So go on, keep on turning  
Or keep burning to the ground  
You'll still find that they're still fighting  
For the chance of one more round So take a step back again  
We'll grind ourselves down to a bitter end  
Don't deny me  
Don't deny me my bitter end  
(Give me something just to hold)  
(Give is vengeance)  
(Give us hindsight)  
(Give us something just to hold)  
We don't care if what we're asking is something we've been told  
Get those words stuck in your mouth to spill out something new  
'Cause we're all sick of talking about what everyone's been through So take a step back again  
We'll grind ourselves down to a bitter end  
Don't deny me  
Don't deny me my bitter end Oh, I can't tell you a story  
There's nothing more to say  
We'll just move on like the others  
Who smell of yesterday  
So lead us off somewhere  
Not where we fought and died  
'Cause we'll be catching the wind before nobody is alive  
So take a step back again  
We'll grind ourselves down to a bitter end  
Oh, take a step back again  
We will grind ourselves down to a bitter end  
Don't deny me  
Don't deny me  
Don't deny me my bitter end (Give me something just to hold)  
(Give me something just to hold)
