

Marching Band

Wiretree

well i used to be in a marching band
Got out of school i made a new plan
then I had a friend who was from minnesota
they moved down south to a place in pensacola
so i moved away into the middle of the state
i set up camp and made a new place

i taught myself how to get by
i worked odd jobs and made a couple dollars
I stared at wall, then i looked outside
took a long breath until didnâ€™t hide
I started to walk , it began to rain
I was running along to catch that trai-a-n

I used to listen to the Beatles and the stones,
Then I found some bands like the move and the ramones
we made some friends whoâ€™d we met in the city
we lost a few but you know you have carry along

I always go back to sitting in a room
Strumming to myself and working on a new tune
