No More Rhyme

Debbie Gibson

Verse 1:
When the fear sets in
Where the fire burns
Where I find a place
Where theres nowhere to turn
When the evening sings
An eerie song
Longing for the day
You say Im wrongVerse 2:
You can find your place
But never fit in
And only when youve left
Do you know where youve been
I can see the light
But only when its gone
You can go on waiting
But only for so long (so long, so long)Chorus:
I know we are right
Its not always clear
Because Ive never felt the fear
Can it stay so good
Forever in time?
Ive always felt the rhythm
What happens when
Theres no more rhyme?Verse 3:
Can we face ourselves
Like we face each other?
Weve never felt anything
On our own
I cant wait much longer
To feel any danger
I hope were not living for
A lifetime aloneChorusBridge:
Hard to go on
Its like waiting for
The other shoe to drop
Ill never stop
Believing in you
Its just we never had to struggle

It all came too easy
I hope we felt what we felt from the start
Weve never suffered a broken heart
Weve been so blinded by all the best
We never put our love to the test (to the test)Ive always felt the rhythm
What happens when
Theres no more rhyme?
