Last Stand for Independence

Testament

Last chance for independence
Call to arms to take a stand
Fully armed, our forces strong
Against the enemy we dance
Life lost for liberty,
Blood shed to protect our homes
Stand tall, divided we fall
The conflict takes it's deadly tollYou struggle to breathe
Don't ever let go
The less we conceive
The stronger we grow!Fight on for independence
Charge through demolished lands
Ears ring to the hum of bullets
A tune a tragedy of man
Never surrender, blood stains upon thy soul
Burning flags and body bags
The price of liberty for allThe last thing you'll see
Is the last thing you'll know
The less we conceive
The stronger we grow!Facing our death
Struggle to breathe, choking on fear
In god we trust
Oppression for years
Blood sweat and tearsWill we ever know
The stillness of the storm...Can we readjust
Our failures into trust...Last chance for independence
The final call to make a stand
Hold fast, united strong
Against the enemy at hand
Never surrender, blood strains upon thy soul
Burning flags, and body bags
The price of liberty for allYou struggle to breathe
Don't ever let go
The less we conceive
The stronger we grow!Facing our death
Struggle to breathe, choking on fear
In god we trust
Oppression for years
Blood sweat and tears
