

Evil Angel

The Demonics

For to see my depth of sorrow
You are not allowed to follow me
 Into this town square
 And then run away
Evil angel with your cleft tongue
 When you kissed me
 On this town square
 All the lights came on
At sunset thought you'd stay
 Evil angel bearing apples
 When you kissed me
On this drawbridge as the boats do
 How was I to know you'd flee
 Tear down these monuments
 Bury the coat of arms
 And build for me a factory
Evil angel when you're faced with
 Hatred's daggers in my honor
You're no match no scratching hearts
 That no longer bleed
Oh, evil angel tear down the monuments
 Evil angel bury the coat of arms
And rebuild for me these memories
 For to see my depth of sorrow
