Conqueror

Armored Saint

Honor abide
Choice of words
That I speak todayConsequent evidence
Now they put astray
Conflicts forever halt
Wipe resentment clean
No thoughts of decadence
Life is now sereneI've foreseen
You're now fortified
Take the highest point
Drive it in your sideKeen are they
Who feel the conqueror
Truth of the heart
Or peace will fall apartAgain it's none for this
None for that, can we share alike
Positive identity
Creates the oversightNever erase the light in man
No more blockades
Warfare for at last
Are to soon about to fadeI've foreseen
You're now fortified
Take the highest point
Drive it in your sideKeen are they
Who feel the conqueror
Truth of the heart
Or peace will fall apartIt's taken years to mend
Can't take the high hell
Can't change the way they feelHonor abide
Choice of words
That I speak today
Warfare for at last
Are soon about to fadeI've foreseen
You're now fortified
Take the highest point
Drive it in your sideKeen are they
Who feel the conqueror
Truth of the heart
Or peace will fall apartAgain
It's done
