One Love

Acel Bisa

Lower than the sky above you
clearer than blue
brighter than the rays of sunshine
warmer than what you feel
more than all the wonders you see
it's the most wonderful thingbrighter than the living colors
of flowers you see
sweeter than the touch of water
flowing from the mountain spring
more than all the wonders you see
it's the most wonderful thingone love
i love you so
love is the beautiful one
i love you so
love is the beautiful one
all we need is love
real lovemarvel at the sight of greenfields
amazingly seen
watch the colors of the rainbow
it's miracle you see
more than all the wonders can be
but there's more than thatone love
i love you so
love is the beautiful one
i love you so
love is the beautiful one
all we need is love
real loveclearer than what you could feel
more than what you've ever dreamed
this is better than your everythingone love
i love you so
love is the beautiful one
i love you so
love is the beautiful one
all we need is love
i love you so
love is the beautiful one
i love you so
love is the beautiful one

all we need is love
