

Memories

Grand Funk Railroad

I'm thinkin' 'bout my baby right now
And I'm feelin' sentimental
She's all I got in my memory
But it really isn't accidental
All I have are these memories
Memories keep haunting me
All I have are these memories
Memories keep haunting me
I think about her though she's gone from me
And I want to get her back sincerely
I pray to heaven she's alright tonight
'Cause you know I love her, love her dearly but

All I have is this lonely song
Lonely song, I'm singin' all night long
All I have are these memories
Memories keep haunting me
All I have are these memories
Memories keep haunting me
All I have is this lonely song
Lonely song I'm singin' all night long
All I have are these memories
Memories keep haunting me
All I have is this lonely song
Lonely song I'm singin' all night long
