## Behemoth

(Music by Nergal, lyrics by Nergal) I've met in surrounding me nature  
Spirits and deities wielding the element  
In a field, in a forest, in rocks and caves  
and I won their goodwill with sacrifices  
Horses carried me to the skies  
White, beautiful steeds... beloved  
I was attacking brushwood violently  
I touched motherland PERCUS! Magic circles and black stones  
PERCUS! Forest spells and damned souls  
PERCUS! I find worship in you  
PERCUS!!! They will return, dance like fire, as before  
They will return, to the trees  
to the forest of mine... to the kingdom! The thunderer demons  
guards of sacred spot  
during those cold nights  
they found peace and consolation Between the gates of Pomeranian kingdom of magic  
They will reign again the thrones of mighty fatherland! I rediscover their power and charm  
To defeat like a sorcerer  
Like thousand years ago  
oaken castles from millennium before  
They will rise once again... as a sign...  
PERCUS!
