# Boner

## Grand National

So keep me going
Light switch the light on
Break up my bones
And throw me on the afternoonIt's chasing wheels
Before they're circles
Break up my view
And leave me with the afternoonGet your finger out
Pick a flavor out
Stick a label on somebody's name
And then pay the differenceGet your finger out
Pick a flavor out
Stick a label on somebody's name
And then keep the difference
