

Making the Nature Scene

Sonic Youth

Going back to these origins
City is a natural scape
Order in the details
Confusion uproar in the whole
Nature reality is selection
The tool of critical intervention
Fragmentation is the rule
Unity is not taught in school You are an unnatural growth
On a funny sunny street
City has forgotten you
It's symbols of the past
The meaning of its state
Its order of decay
Stand now in a column
And make the nature scene Standing all in columns
Making the nature scene
Making the nature scene
Waiting to make them pay
There is no resistance to
The signs along the way Standing all in columns
Waiting to make them pay
Making the nature scene
Waiting for the day
There is no resistance to
There is no resistance to
Salvation means, to count on you
It just means, to count on you
Make the nature scene
