I'm Not Ready

Advisory - the following lyrics contain explicit language:

Come on man you know that's not good for you
Laugh it off now but?
Let me explain what everyone's already said
You know I'm only looking out for you
Say you don't believe me; "I know better"
Flaking out again when we could be together?
You wonder why you've got no one else to turn to
You know I'm only looking out for you
And I'm not ready to look the other way
Take a look under the microscope man
Try and ignore the disarray
And I'm not ready to look the other way
Take a look under the microscope man
Try and ignore the disarray
Your mouth is running off
Now that you've seen a few things
You're talking down to me
But i can see that no ones listening
So you've found some one new
To lap your shit up for a while
Honestly
Sooner or later they will find out what you're made of
So ugly
And then its over
Come on man you know that's not good for you
Laugh it off now but?
Let me explain what everyone's already said
You know I'm only looking out for you
Say you don't believe me; "I know better"
Flaking out again when we could be together?
You wonder why you've got no one else to turn to
You know I'm only looking out for you

And I'm not ready to look the other way
Take a look under the microscope man
Try and ignore the disarray
Your mouth is running off
Now that you've seen a few things
You're talking down to me
But i can see that no ones listening
So you've found some one new
To lap your shit up for a while
Honestly
Sooner or later they will find out what you're made of
So ugly
And then its over
And now you can't count on me
Cause I can't count on you to be
Honest with me
How I can believe
How I can believe
To be a friend means owning up and giving all of yourself
And loyalty is started through loving others like self
And now explain to me that you could be any of these
And we don't have to hold on anymore?
