

# Over the Hill

[Agnes Obel](#)

Over the hill  
I will be waiting for you  
I wont pretend  
That you don't mean nothing to me  
Come now, come now,  
Come back now, come back now  
The doubt will creep  
And crawl in on you  
The dark can leap  
And fall upon you  
Come back now, come back now  
Let it be, let it go  
Let it fall, let it blow  
Let it come, let it go  
Let it fall, we will know
