Hyperpower!

DEADSKIN

Are you looking for the truth or another fight?
If you're wanna give me what I want, then give it up tonight
Freedom and looking for the, and looking for the fight
If you're wanna give me what I want, then give it up tonightThe world that circles around me could benefit from silence
This song is my enemy, watch how I become it
Cradled by mystery and make believe
I am fully [unverified] in the other nightChildren wish upon me, this man and his army
Praying that fortresses make you guns of steeples
Insurgents of people, Messiahs and immigrants detained at the border
Severed from his trinity, his wife and his daughterAmerica the beautiful, now beheaded hoedown
Lynched birds throw down
It seems our favorite pastime has become our most fair future
Technology has failed us, gunshots by computerGunshots by computer
Gunshots by computer
Gunshots by computer
Gunshots by computerAre you looking for the truth or another fight?
If you're wanna give me what I want, then give it up tonight
Freedom, and looking for the and looking for the fight
If you're gonna give me what I want, then give it up tonightAre you looking for the truth or another fight?
If you're wanna give me what I want, then give it up tonight
Freedom, and looking for the and looking for the fight
If you're wanna give me what I want, then give it up tonightGunshots by computer
Gunshots by computer
Gunshots by computer
Gunshots by computerGunshots by computer
Gunshots by computer
Gunshots by computer
Gunshots by computer
