Ode To Manheim Steamroller

Reggie and the Full Effect

One time when you ran from me
I remember it clearly
A year ago and I'm here todayJust like you said that day
So simple in your own way
No doubt that both of us are insaneDo you remember the day we met?
Said words, I can't forget
So much I think of what you doJust like you said that day
So simple in your own way
No doubt that both of us are insaneSometimes it gets instilled
Sometimes it feels too real and I can say
This is the deal I'd like forever and everI'll never love again
Can't you see that I'm in
I'll never know another you, what you do?
