

Ode To Manheim Steamroller

Reggie and the Full Effect

One time when you ran from me
I remember it clearly
A year ago and I'm here today Just like you said that day
So simple in your own way
No doubt that both of us are insane Do you remember the day we met?
Said words, I can't forget
So much I think of what you do Just like you said that day
So simple in your own way
No doubt that both of us are insane Sometimes it gets instilled
Sometimes it feels too real and I can say
This is the deal I'd like forever and ever I'll never love again
Can't you see that I'm in
I'll never know another you, what you do?
