# Between Here and the Front Door

## Brandon Rhyder

Youve been waltzing in and out of this life for so long its getting to be old hat
I bet you never thought that you could ever go so wrong
But right now thats where youre at, Its time to face the cold hard fact
CHORUS
Between here and the front door
You better think of something, think of something real fast
I aint stopping you anymore
Youre about to say something that you cant take back
So theres nothing I can do but draw a line down the middle
Of the living room floor, and its all going down between here and the front door
Well youre doing it again, changing colors with the wind
Well baby get it understood
If youre gonna go, go but if youre gonna stay, stay
But this time youre staying for good, hey Id help you if I could
CHORUS
This is where it happens, this it where it gets real
I dont want to lose you, you know how I feel
CHORUS
