

# Between Here and the Front Door

**Brandon Rhyder**

Youve been waltzing in and out of this life for so long its getting to be old hat  
I bet you never thought that you could ever go so wrong  
But right now thats where youre at, Its time to face the cold hard fact

CHORUS

Between here and the front door  
You better think of something, think of something real fast  
I aint stopping you anymore  
Youre about to say something that you cant take back  
So theres nothing I can do but draw a line down the middle  
Of the living room floor, and its all going down between here and the front door  
Well youre doing it again, changing colors with the wind  
Well baby get it understood  
If youre gonna go, go but if youre gonna stay, stay  
But this time youre staying for good, hey Id help you if I could

CHORUS

This is where it happens, this it where it gets real  
I dont want to lose you, you know how I feel

CHORUS
