Step Away

Plankeye

I take the time to understand
That life is just a living men
And so I realize what I must be do
I set my flesh aside, I let You throughWith my flesh aside, I let You through
And I see all the works You do
I love You, Lord and I don't say it enough
So I just want to give my life to YouI step away, ooh, I step away
I step away from myselfWe are here together
Like we've been once before
But this time there's something different
You let Jesus through the door
