Long Way To Go

Andrew Stockdale

You're so young, do you know?
How I feel since you've been gone?
Your dream's in a suitcase, face to the wind
That moment is over and so it begins
You've got a long way to go
Such a long way to go
It's not easy for me but I'll set you free
You've got a long way to go
I've been there where you are
Caught between the earth and the stars
You're safe in the middle apparent to me
But that's not the life that you wanted to lead
You've got a long way to go
Such a long way to go
It's not easy for me but I'll set you free
You've got a long way to go

I'm still here, nothing's changed
You can count, on me like the rain
To flow like a river back into your heart
Though miles are between us, we're never apart
We got a long way to go
Such a long way to go
It's not easy for me but I'll set you free
We got a long way to go
We got a long way to go
Such a long way to go
It's not easy for me but I'll set you free
We got a long way to go
Such a long way to go
We got a long way to go
