True Nature

Jim James

Before the beginning and after the end
Future generations are out of our hands
In the broad daylight or in the black of night
You gotta let it be known

And do whatever feels right

Your true nature

True nature

True nature

True natureWell it was the Wild West then

But then is still everything

And everything is still nothing

If it don't add up to something

And we take it for granted until it's taken away

Well it's in our true nature

I thought I heard you say

True nature

True nature

True nature

True natureI'm not saying a word

As far as I'm concerned

If you really wanna know

You can find it in the afterglow

It's all right there in the light

Plain as day

Black as night

You do what you can

Will future generations ever understand

Their true nature

11000 11000010

True nature
True nature

.

True nature
True nature
