

Betrayed Me

[Adema](#)

I watched you change and never knew
That you would be like all the rest
You were so true too good to be true
I trusted you and feel apart again I can not change the fact
That your not coming back
So depressed I'm your slave Betrayed me your not the one
To be trusted with my love
Betrayed me your not the one
Who should be trusted with my love I had to leave so I could breathe
I hate to fight that's not what I want
You were so true too good to be true
I trusted you and feel apart again
