Last Leaf

Ok Go

If you should be the last autumn leaf
Hanging from the tree
I'll still be here waiting on the breeze
To bring you down to me
And if it takes forever
Forever it'll be
And if it takes forever
Forever it'll be
And if you should be the last seed in spring
To venture out a leaf
I'll still be here waiting on the rain
To warm your heart for me
And if it takes forever
Forever it'll be
And if it takes forever
Forever it'll be
