Anonymous

Three Days Grace

In my mind,
Worlds collide, something inside me has gone.
Still i keep going on.
In my mind
Oceans divide, I don't know where i belong.
But still i keep holding on and on.

I get by in a world with no conscience,
By shuting it out and being anonymous.
And the problem is you're just like me
We get by in a world with no conscience
By shuting it out and being anonymous.
In my mind worlds collide
Something inside me has gone
Still i keep going on.
In my mind
Oceans divide, i don't know where i belong.
But still i keep holding on and on and on.

(x2)
I get by in a world with no conscience,
By shuting it out and being anonymous.
And the problem is you're just like me
We get by in a world with no conscience
By shuting it out and being anonymous.
Hello hello hello hello
Is there anybody out there?
Hello hello hello hello
I get by in a world with no conscience,
I try and try but i am anonymous
And the problem is you're just like me.
Just like me
I get by in a world with no conscience,
By shuting it out and being anonymous.
And the problem is you're just like me
We get by in a world with no conscience
By shuting it out and being anonymous.
We feel so anonymous, We feel so anonymous
