

# Rest Assured

David Slater

REST ASSURED

David Slater

The blue sunrise  
Upset your weary arms  
You didn't sleep a week last night  
I felt you by your turning

But who knows why  
We ever had that fight  
Maybe we just start these things  
To make up in the morning

\*

Rest assured everything will be alright  
Take it easy on your mind  
There's no need for alarm  
Rest assured if you have a sleepless night  
Is cause I'm holding you so tight  
In my loving arms, rest assured

I realize the doubts inside your mind  
Keep on clouding up your night  
You cry yourself to sleep  
Well girl just have some faith  
And know that I'm here to stay  
Gonna love you more your days  
And even in your dreams

Repeat \*

Sometimes when I wake  
You're too beautiful to take  
And I touch you just to make  
Make sure that I'm not dreaming

Repeat \*
