

Sue

Lisa Mitchell

what can we do about you, sue
i'd do anything for you
can't you see
that you're better than them
you build your life around us, sue
you want to fix us when your blue
i know your better than this
all the guys they want you
but you gotta watch yourself
what can we do about you, sue
just tell me anything
just open up and tell me why
and i won't say no word
i won't tell anyone
i won't repeat a thing
just ask me what i think
cause i love you
all the guys they want you
but you gotta watch yourself
what can we do about you, sue
i got you figured out
i know a secret

and i feel like a king without a queen
if only you could know
how you effect the ones you meet
nothing less than insame
all the guys they want you
but you gotta watch yourself
what can we do about you, sue
what can we do about you, sue
i'd do anything for you
can't you see
you're better than them
you build your life around us, sue
you want to fix us when your blue
i know your better than this
so all the guys they want you
but you gotta watch yourself

what can we do about you...
sue...
