

# Take Me Away

## Blue ã-yster Cult

Strange shapes light up the night  
I've never seen 'em though I hope I might  
Don't ask if they are real  
The men in black, their lips are sealed

Fantasy fills my mind  
To leave this place before my time  
Release myself from earthly care  
My dream may be your nightmare

[Chorus]

I turn my hopes up to the sky  
I'd like to know before I die  
Memories will slowly fade  
I lift my eyes and say  
Come on take me away  
Come on take me away

Come here girl close to me  
A thousand stars your eyes can see  
First one we see tonight  
I wish I may I wish I might

[Chorus]

Jam

[Chorus]

I lift my eyes and say  
Come on take me away
