

# Out of This Misery

## Prong

I'll take no blame  
For some other's mistake  
A fossil of the past  
Continue underrate The ability to end a life  
No stability in opinions not alike  
Not alike  
Opinions not alike Someone should take me, out of your misery, yeah  
If I should take it any further, any further  
I'll end it, you out of this misery, yeah  
Out of this misery, yeah I will not shame  
For a deed undone  
I'm reaching for the stars  
Spittin' at the sun I'll take the liberty to get you off my back  
I want your history taken off the map  
Off the map  
Your history taken off the map Someone should take me, out of your misery, yeah  
If I should take it any further, any further  
I'll end it, you out of this misery, yeah  
Out of this misery, yeah You've got life  
Blood on our hands  
This is no life Someone should take me, out of your misery, yeah  
If I should take it any further, any further  
I'll end it, you Someone should take me, out of your misery, yeah  
If I should take it any further, further  
I'll end it, you out of this misery, yeah  
Out of this misery, yeah, out of this misery, yeah
