Creator Failure

Iced Earth

(Music : Schaffer, Shawver, Abell / Lyrics : Schaffer)

A lonely maiden stands
Bound to the obelisk
As she tugs and pulls
And tries to twist

Shackles slice her virgin wrists

Blood now covers her tiny hands

How does thou receive this fate?

She asks of her own mind

Purity, innocence, encourage death

Life... gone is mine

I also ask of you my lord

Thy god in heaven

For I understand the error of mans ways

But of creation and the seven days

When was created the murky haze

From which the beast has risen

Fail me not my master

For this is your creation

Your son the bastard

Leviathan

Blackness, dripping stench

Unrelenting vice

Vile embellishment

Transcending pure evil

Standing now before her eyes

Wings expanding... shes going to die

Belching blue green fire

Flesh feeds the desire

The serpent gods apocalyptic smile

Come to me my demon brother

Of us both and our fathers

A failure of creation ... abomination
