

Devil Beside You

The Used

Just by the look of it
As in the way you wrote me off
I'm not supposed to see
Your eyes tell lies your mouth could never spill I wasn't feeling it
I don't even need to shake your hand
Guess, you were born to quit
Your eyes tell lies your mouth could never spill
Eyes tell lies your mouth could never spill So nice to meet you
I see right through that smile
So in other words
So nice to meet you
I hope I never see your face again You don't want a part of it
Don't wanna be seen with a type like you
I know you were born to quit
Your eyes tell lies your mouth could never spill Can we get on with it
We both need to go our separate ways
Never be seen again
Your eyes tell lies your mouth could never spill
Eyes tell lies your mouth could never spill So nice to meet you
I see right through that smile
So in other words
So nice to meet you
I hope I never see your face again Devil beside you
To watch you die when you can't find a remedy
So nice to meet you
I hope I never see your face
I hope I never see your face again I hope I never see
Hope I never see your face
I hope I, I hope I, I hope I
I hope I never see your face So nice to meet you
I see right through that smile
So in other words
So nice to meet you
I hope I never see your face again Devil beside you
To watch you die 'cause you can't find a remedy
So nice to meet you
I hope I never see your face
I hope I never see your face again
