Any Moment Now

Finger Eleven

Just one more lapse in judgment
And I'll be set
And just give me one more minute
And I'll be ready then
Oh any moment now
I'm gonna know how to play my part
Oh, any moment now
I'm gonna feel like a work of art
I wanna feel my confidence kick in
I wanna feel bulletproof again
Though I wonder if I ever really felt like that
I can almost guarantee that I haven't
No, not yet
Just one more explanation
How I'm gonna get through this
Just tell me one more time
And I won't ask again
Oh, any moment now
I'm gonna know how to play my part
Oh, any moment now
I'm gonna feel like a work of art
Just one more explanation
Just one more explanation
I wanna feel confidence somehow
I wanna feel bulletproof right now
Just one more explanation
And it can all begin
Oh, any moment now
I'm gonna know how to play my part
Oh, any moment now
I'm gonna feel like a work of art
Oh, any moment now
I'm gonna know how to play my part
Oh, any moment now
I'm gonna feel like a work of art
