

White Line

Allan Holdsworth

When you're walking that line

And you're well

On your way

Into

Something

Wrong

When you can't make the time

It's hell

You must pay

Closing

All the

Songs

There's a good way to tell if you're there

Take a look at the eyes of the people who share

There's a time and a place to get out of your face

When you're caught in the rain, you do it all again

You do it all again

When you're playing that mind

That don't lead

Anywhere

Although

Midnight

Fall

Walking slowly down that line, you're walking slowly down that line

Walking slowly down that line, you're walking slowly down that line

Walking slowly down that line, you're walking slowly down that line

Walking slowly down that line, you're walking slowly down that line

When you come in and find

There's no use

For the day

Cause it's

Much too

Strong
