

# No Ground

## Barcode

I try to do what's wrong  
Try to fuck it all up  
I try hard to unbehave  
And I, I move 'round beyond what's sane I'm jumping overboard  
Try to fly without wings  
And I always miss the call  
But I - I don't seem to care at all There's no ground  
Float or drown  
Filthy few  
No help is around  
There's no ground  
There's no ground Far out  
Groping 'round  
Just keep on pushing it  
No shit
