Good Love

Bat For Lashes

In the night time we are found
Misty sorrow swoop unbound
Whisper you mean it, say you'll stay
Hold my heart till brighter days
(Good love)
Now I am searching how to get alone
(Good love)
This queen of heart's dancing on her throne
(Good love)
But I need sorrow, baby, life's sorrow is the drug
(Good)
So will I ever find that place they call good love?
Good love
Passed it last night in a dream
Good love
And my heart caught fire
I drove past true love once, in a dream
Like a house that caught fire, it burned and flamed
Then the magician disappeared as quickly as he came
And with a sound like white magic

Caught in a black car's blazing trail
(Good love)
The house set fire to my heart
(Good love)
Like an inferno we shone rays
(Good love)
I swallowed the sun in your form
(Good)
I woke up and you were crying
I woke up and you were saying
Good love
Passed it last night in a dream
Was I good, love?
'Cause my heart caught fire
Good love
Passed it last night in a dream
Was I good, love?
'Cause my heart caught fire
