Kiss Your Genre Goodbye

Hey
Are you ready for a new style in this scene?
Start some shit!
Don't admit you were your
ex-boyfriend's bitch
everyday of the week.So smooth about it,
Pretend you're doin' well
Obsessed about him
Baby you need him
Baby you kiss but never tell.Prepare for a letdown
We knew it all along
So don't get me wrongYes!
You got a way with words.
And bridges you'd love to burn
You were the one, for me.
And boys, please take this
All to heart
She'll tear us all apart
You were the one for me,
But I was wrong.I've seen you shake
And I've seen you get played
From bright, green eyes
You're such a lush with a
Soft simple touch
Who's not so bright.So smooth about it,
Pretend you're doin' well
Obsessed about him
Baby you need him
Baby you kiss but never tell.Girl, you got a way with words
And bridges you'd love to burn
You were the one, for me
And boys, please take this
All to heart
She'll tear us all apart
You were the one for me,
But I was wrong.Girl, you got a way with words
And bridge you'd love to burn
You were the one, for me
And boys, please take this

All to heart
She'll tear us all apart
You were the one for me,
But I was wrong.
