Detox

Insolence

It's too late for me to survive
It's too late for me to survive
It's too late for me to survive
It's too late for me to surviveHow can I live when I cant breathe
Because you stepped into my threshhold
Get code red
You said you were my friend why dont you wait for me
You left me for dead while I could not see
You pray to your religion like a frequency
How come my enemy be all that i'm a need
Cause you got me hooked what do you do with me
Because its too late too late too late for meToo late too late for me (survive)
Too late too late for me (survive)
Too late too late for me (survive)
Too late too late for meIt's too late for me to survive
It's too late for me to survive
It's too late for me to survive
We dont wanna play that way because I crucify myself ??? ???
It's too late for me to survive
We dont wanna play that way because I crucify myself ??? ???How can I live when I cant breathe
Because you stepped into my threshhold
Get code red
You said you were my friend why dont you wait for me
You left me for dead while I could not see
You pray for stupid things like a frequency
How come my enemy be all that i'm a need
Cause you got me hooked how could you deal with that
Because its too late too late too late for mePresure weighing on me
Deamons in my head need to be set free
Presure weighing on me
Deamons in my head need to be set free
Presure weighing on me
Deamons in my head need to be set free
Presure weighing on me
Deamons in my head need to be set free
Presure weighing on me
Deamons in my head need to be set free
Presure weighing on me
Deamons in my head need to be set freeIt's too late for me to survive

It's too late for me to surviveBecause a presure dropper makes you wanna slip
Another page inside my notebook gets ripped
The plot I once wrote
Has aperently been flipped
Thought I had a grip
But aperently it slipped
I lost focus that i gained throught a scope
Lost the last of my hope
In a knot and a rope
Its a straight case result of a need for danger
First come the Detox then come the angerToo late too late for me too survive
Too late too late for me too survive
Too late too late for me too survive
Too late too late for me too survive
