

Progress

Lee Corey Oswald

Talking to me with the break
The finish line was written on your face
I'll make you pay, you're in my way
But I don't have the guts to say
The words that I will probably eat someday This is progress
This is progress
Yeah this is what progress should look like
This is progress
This is progress
Yeah this is what progress should look like What's it like to really change the bubble that we live in
With all the brilliant words sprun from your lips
It's been fun but we're still the ones who couldn't find our feelings
Words so full of hope, oh nothing, nevermind I quit
This is progress
This is progress
Yeah this what progress should look like
This is progress
This is progress
Yeah this is what progress should look like
This is progress
This is progress
Yeah this is what progress should look like
This is progress
This is progress
Yeah this is what progress should look like
