Truth or dare

ì¹µìŠ¤

I got a secret, I'm telling everyone
Don't wanna keep it, I wanna play dumb
I made a promise I think I'm ready to break
It's just a question, there's nothing wrong or right
And your intentions keep you up at night
Play with fire and you are way too insane
But when the lights go out, go out
We are just beginning
And not a sound, our eyes are looking down
Spin the bottle round and round and round and round
Last kiss on the tip of your lips
Where it heads, now watch your heart beat beating
Time's up, are you ready or not?
So don't stop when you get that feeling now, now
Tock, tock, it's your heart beat beating
Now, now, it's just
I feel uneasy, I feel it in the air
It's too danger, I'm playing unprepared
I try to hide it before I make a mistake
But when the truth is out, is out
We're just beginning
Without a sound, our eyes are looking down
We spin the bottle round and round and round and round
Last kiss on the tip of your lips
Where it heads, now watch your heart beat beating
Time's up, are you ready or not?
So don't stop when you get that feeling now, now
Tock, tock, it's your heart beat beating
Now, now, it's just
Well, I'm ready, so ready
So take me on
(So take me on)
You're staring, I'm so trapped
It's on and on and on and on
Last kiss on the tip of your lips
Where it heads, now watch your heart beat beating
Time's up, are you ready or not?
So don't stop when you get that feeling
Last kiss on the tip of your lips

Where it heads, now watch your heart beat beating
Time's up, are you ready or not?
Well, don't stop when you get that feeling now, now
Tock, tock, it's your heart beat beating
Now, now, it's just a game
