

# If That's Love

[Laura Pausini](#)

If you're gonna break my heart and leave  
Make promises you don't intend to keep  
If that's love, then I want no part  
But if you think that love should last for life  
If you believe it's more than just one night  
If that's love, then you've got my heart And if you'd rather hold on to your pride  
Then wipe away the tears you made me cry  
If that's love, then I want no part  
But if you're gonna be there when I need  
Someone to just hold me tenderly  
If that's love, then you've got my heart Ohh, if the kind of love that you bring  
That comes with no demands and no strings  
If in your eyes I see for sure  
That you're the one I'm waiting for  
I'll give my heart, my soul, my everything If I have to let go of my dreams  
Become someone I never, never thought I'd be  
If that's love, an' I want no part  
But if you're gonna be that kind of man  
Who's willing just to take me as I am  
If that's love, then you've got my heart Ohh, tell me in your arms I'll be safe  
Baby, y'll tell me  
Where loneliness and fear have no place  
Ooh, the only thing you have to do  
The only thing I ask of you  
Is give your heart, your soul and your faith And if you cannot give these things to me  
Then I just have to tell you honestly  
If that's love, I want no part  
But if you say you've finally found in me  
The only place that you could ever be  
If that's love, you've got my heart If that's love, babe, you've got my heart  
If that's love  
If that's love  
If that's love, baby you, baby you  
You've got my heart
