

# Blue Star

Charlie Daniels, Tom Crain, Taz Digregorio, Fred E

Blue star over my shoulder  
Blue star, can't you see?  
Blue star, it's a little colder  
She's gone away from me And I wish I never seen her with the sunlight in her eyes  
And I wish I'd never learn the game she played  
And I wish I'd never listen when she told me all the lies  
And I wish I'd never seen her walk away She was everything I wanted  
She was sweet mystery  
Blue star, every night I hold it  
She's gone away from me And I wish I'd never seen her with the sunlight in her eyes  
And I wish I'd never learn the game she played  
And I wish I'd never listen when she told me all the lies  
And I wish I'd never seen her walk away Dark eyes shining like two diamonds filled with fire  
Dark hair blowing in the wind of hot desire  
Red lips pulling me now Dark eyes glowing like two diamonds filled with fire  
Dark hair blowing in the wind of hot desire Blue star over my shoulder  
Blue star, can't you see?  
Blue star, it's a little colder  
She's gone away from me And I wish I'd never seen her with the sunlight in her eyes  
And I wish I'd never learn the game she played  
And I wish I'd never listen when she told me all the lies  
And I wish I'd never seen her walk away  
And I wish I'd never seen her walk away
