Popcorn Love

Jacob Latimore

Dont you know, dont you know, dont you know
Its the real thing, girl?They say, "Its popcorn love"
But its more than that to me
Popcorn love, just wait they will see
Its popcorn love, every morning, noon and night
Popcorn loveDont you know, dont you know
Its the real thing, girl?When we go on our special dates
Were always holding hands
And were never ever late
Youre on my mind all the timeI keep thinking, thinking, I keep thinkingPopcorn love, but its more than that to me
Popcorn love, just wait, they will see
Popcorn love, every morning, noon and night
Popcorn loveDont you know, dont you know
Its the real thing, girlI go to school and then I come straight home
The first thing that I do is call you on the phone
The things you say, uh, really make my day
I need you, girl, in every kind of wayI keep thinking, Im just thinking
I keep thinking, thinking, thinking
Thinking, thinkingThats right, thats right
Thats right, thats rightAh, P is for her personality
I said the O is for originality
And the other P is for the perfect love she gives to meThe C is just cause she loves me
And the O means shes the only love I got
And the R and the N, our love will never endWell, I know, I know its the real thing
Because she told me so
And I know, I know its the real thing
And Ill never let her goI just got to, I just got to have your lovePopcorn love, but its more than that to me
Popcorn love, just wait, they will see
Its popcorn love, every morning, noon and night
Popcorn lovePopcorn love, its more than that to me
Popcorn love, just wait, they will see
Popcorn love, every morning, noon and night
Popcorn love
Popcorn love but its more than that to me
Popcorn love
