

# I'm on Your Side

Ian Kelly

You say you need this  
You deserve to own it now  
You can't afford it  
Still you're getting it somehow  
And the dance you step into  
When the monthly fee is overdue  
You will still feel me  
In the earth under the tree  
You're acting crazy  
It gets darker in the sun  
Has it only just begun  
Can your love for me still make you run  
There's always something new  
Could you, write down a thought or two  
Let's see, what do we have in here?  
Love's not all, there's plenty more to fear  
And when we grow old  
Then our hearts turn to gold  
I'm never lonely  
All I want is to be here  
All I need is you around  
In our home where we are safe and sound  
I'm on your side  
There's always something new  
Could you, write down a thought or two  
Let's just see, what do we have in here?  
Love's not all, there's plenty more to fear  
Love's not all, there's plenty more to fear
