# The Joust

## Black Knights

we fight alone up in a covert operation
wade through the litigation
from the dark side of the line
look alive stand tall now do not reveal your secrets
generations of achievements shall not be left behind
i never knew there was a hidden source of power
the ancients built this tower
that we all must keep alive
it's the same alliance
that brought us to this notion
like the movement in the ocean
all directions we will strive
i hear you
you feel me
a force that's so strong we will always see
i need you
i bleed you
to a world that's far from free
darkening shadows of everyday battles stands a man
