

How Do I Deal

Jennifer Love Hewitt

Advisory - the following lyrics contain explicit language:

Every day I wake up
To another day gone by
Nothing but the open road
And the never-ending why Anything can happen
Yeah, but nothin' ever does
I try to change, it's kinda strange
The same as it ever was but look at us How do I deal with you?
How do I deal with me?
When I don't even know myself
Or what it is you want from me How do I deal with us?
How do I know what's real?
When I don't even trust myself
Or what it is I feel
And how do I deal? Every night, in the dark
I lie awake in bed
How am I supposed to dream
With all the static in my head? I turn in all directions
And I pray for some relief
What can I do but feel the weight I'm underneath
And grit my teeth How do I deal with you?
How do I deal with me?
When I don't even know myself
Or what it is you want from me How do I deal with love?
(Why do I?)
Why do I have to choose?
And everybody's tellin' me
What the hell I have to do And how do I deal with us?
How do I know what's real?
(Real)
When I don't even trust myself
Or what it is I feel
Now how do I deal? How do I deal with you?

(How do I deal with you?)
How do I deal with me?
When I don't even know myself
Or what it is you want from meHow do I deal with love?
(How do I deal?)
Why do I have to choose?
When everybody's tellin' me
What the hell I have to doHow do I deal with you?
(How do I deal with you?)
How do I deal with me?
(How do I deal with me?)
When I don't even know myself
Or what it is you want from meHow do I deal with us?
(How do I know what's real?)
How do I know what's real?
When I don't even trust myself
Or what it is I feelHow do I deal?
(How do I deal? Yeah)
How do I deal?
How do I?
How do I?How do I deal?
How do I?
How do I?
How do I deal with you?
(How do I deal?)
