Fairytales

The Ventilators

You must believe the fairytales I tell you
Love your princess find your way
To your castle if you do
My fairytales will help you through
You must believe the fairytales I tell you
Fight your dragon find your way
To your castle yes it is true
My fairytales will always help you to
One one two two
Here is something new for you
Give it up and live it up
The wizard here is turnin up
Can it be a mystery a fantasy I tell tell cause
You must believe in this fairytale
You must believe the fairytales I tell you
Love your princess find your way
To your castle if you do
My fairytales will help you through
You must believe the fairytales I tell you
Fight your dragon find your way
To your castle yes it is true
My fairytales will always help you to
Three three four four
I m back with the hardcore
Open up and read my book
And tell me what you see see
Can it be a mystery a fantasy I tell tell cause
You must believe in this fairytale
You must believe the fairytales I tell you
Love your princess find your way
To your castle if you do
My fairytales will help you through
You must believe the fairytales I tell you
Fight your dragon find your way
To your castle yes it is true
My fairytales will always help you to
