

Something To Make You Happy

The Derek Trucks Band

I see the people
Starvin' in rags
I see my brother
Lyin' down with a pain
I hear the babies cryin'
To their Father God
Askin' Him why you lettin' me born into this world
Goodbye sorrow's rain
I turned around
And I looked at you my darlin'
If we don't stand together they'll try to make us stand alonePre-chorus:
It's strange, it's a wonder but it's true
Every time I look at you
There's something I got to doChorus:
Something to make you happy
Come on just let me know
If there's nothing to make you happy
Just say the word and I'll goI see the battle lines
Forming slowly
I see a silence fall
As the winners and the losers take their stand
I turned around
And I hear you call me darlin'
If we don't spread love through the land
It'll sure enough be dry
